<i>Hive</i>	Stewart/Pittman Films	

"What impressed me about Taggart was that he brought everything to the shoot--not just his equipment and his expertise, but himself. His attitude was always, "bring it on", he made me feel like I could go further than myself as well. He worked really hard, long hours, with a bare-bones equipment package in challenging circumstances (e.g. rush hour, in the rain, New York City) and delivered absolutely beautiful stuff."

Lauralee Farrer, Burning Heart Films
